Mortal Kombat 11

Story :

Following Shinnok's defeat, Dark Raiden plans to protect Earthrealm by destroying all of its enemies and making an example of Shinnok; decapitating him. This latter act inspires Kronika, Shinnok's mother and the keeper of time, to rewrite history in order to erase Raiden's interference. Two years later, a Special Forces strike team led by Sonya Blade, Cassie Cage, and Jacqui Briggs attack the Netherrealm, with Raiden providing a diversion to aid them. The team succeeds in destroying the Netherrealm castle, though at the cost of Sonya's life. Kronika creates an alliance with revenants Liu Kang and Kitana, now rulers of the Netherrealm, immediately afterwards.

Meanwhile, Kotal Kahn, the current emperor of Outworld, attempts to execute Shao Kahn loyalist Kollector, but is interrupted by a time storm that brings Shao Kahn, Skarlet, Baraka, and younger versions of Kano, Erron Black, Jade, Raiden, Kitana, Liu Kang, Johnny Cage, Sonya, Jax, Scorpion, Kabal, and Kung Lao from an alternate timeline and erases Dark Raiden from existence. A battle erupts in Kotal's Koliseum until D'Vorah transports Baraka, Skarlet, Shao Kahn, Black, and Kano to her hive; recruiting them into Kronika's fold.

The Last of Us Series

Story :

The Last of Us is a third-person action-adventure survival horror video game created exclusively for PlayStation 3, and was later remastered for the PlayStation 4. The game was developed by a portion of the employees at Naughty Dog.

Set in the post-apocalyptic United States, the game tells the story of survivors Joel and Ellie as they work together to survive their westward journey across what remains of the country to find a possible cure for the modern fungal plague that has nearly decimated the entire human race.

The Last of Us Part II is a 2020 action-adventure game developed by Naughty Dog and published by Sony Interactive Entertainment for the PlayStation 4. Set five years after The Last of Us (2013), the game focuses on two playable characters in a post-apocalyptic United States whose lives intertwine: Ellie, who sets out for revenge after suffering a tragedy, and Abby, a soldier who becomes involved in a conflict between her militia and a religious cult. The game is played from the third-person perspective and allows the player to fight human enemies and cannibalistic zombie-like creatures with firearms, improvised weapons, and stealth.

Read Dead Redemption 2

Story :

Red Dead Redemption 2 (stylized as Red Dead Redemption II) is a western-themed action-adventure video game developed and published by Rockstar Games. It is the third entry in the Red Dead series and a prequel to 2010's Red Dead Redemption and was released on October 26th, 2018 on PlayStation 4, Xbox One[6] and on November 5th, 2019 for PC.

Set in a fictional recreation of the American Old West in 1899, Red Dead Redemption 2 focuses on the life of Arthur Morgan and his position in the notorious Van der Linde gang. The game follows the gang's decline as they are pursued by lawmen, fellow gangs and Pinkerton agents. The narrative revolves around the characters of Dutch van der Linde, John Marston and Micah Bell in addition to Morgan.

Red Dead Redemption 2 is set in an open world consisting of five American regions, which the player can explore as they proceed with the story, and can be played through both third-person and first-person view. As Arthur Morgan, players can interact with the game world in several ways, including story missions, side quests, challenges, randomized events, and hunting. An Honor system, returning from the previous game, changes accordingly to the player's actions towards non-player characters.

Microsoft Flight Simulator

Story :

Microsoft Flight Simulator (often abbreviated as MSFS or FS) is a series of amateur flight simulator programs for Microsoft Windows operating systems, and earlier for MS-DOS and Classic Mac OS. It is one of the longest-running, best-known, and most comprehensive home flight simulator programs on the market. It was an early product in the Microsoft application portfolio and differed significantly from Microsoft's other software, which was largely business-oriented. At 38 years old,[2] it is the longest-running software product line for Microsoft, predating Windows by three years. Microsoft Flight Simulator is one of the longest-running PC video game series of all time.

Bruce Artwick began the development of Flight Simulator in 1977. His company, Sublogic, initially distributed it for various personal computers.[4] In 1981, Artwick was approached by Microsoft's Alan M. Boyd who was interested in creating a "definitive game" that would graphically demonstrate the difference between older 8-bit computers, such as the Apple II, and the new 16-bit

Marvel Avengers

Story :

Things kick off on a bad note at the start of Marvel's Avengers. At first, the mood is high thanks to a celebration ("A-Day") being used to mark the reveal of two major Avengers add-on's – a second home base in San Francisco and a massive helicarrier that's being powered by a Terrigen crystal. What begins as an amazing day soon turns into a terrible one once the A-Day ceremony results in a citywide destroying incident. Due to being distracted by a surprise attack on the Golden Gate Bridge, The Avengers are unable to stop their new helicarrier from exploding and leveling much of San Francisco. This harrowing event results in the people of San Francisco losing their faith in The Avengers and placing all the blame for A-Day on their shoulders.

The devastating fallout of A-Day effects each Avengers member differently – Captain America is presumed dead, Tony Stark leaves his fortune and technology behind, Bruce Banner questions the importance of superheroes and stays in Hulk form permanently, Black Widow goes back to being a spy whilst in the middle of dealing with her guilt over not being able to save Captain America and Thor feels unworthy of wielding Mjolnir and proceeds to preside over Midgard as a humble king. Five years later, a rebuilt San Francisco falls under the control of Advanced Idea Mechanics (AIM) and heroes are now outlawed. Due to The Avengers feeling that AIM has an evil ulterior motive in mind for ruling society, they must band together once again to save the day and find the true culprit behind A-Day.
